DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 9, after "and" and before "an", delete "a".

In claim 2, line 9, after "and" and before "an", delete "a".

In claim 3, line 9, after "and" and before "an", delete "a".

In claim 4, line 9, after "and" and before "an", delete "a".

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Although the prior art teaches progressive multi-focal lenses for eyesight correction, the prior art fails to teach a progressive refractive surface having a surface as defined in independent claims 1-4. The prior art also fails to teach a method of designing a multi-focal lens having a progressive refractive surface as defined in independent claims 13-16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Komatsu et al teach an eyeglass lens for eyesight correction.
